

# "Whale Quest" A Journey of Transformation

---

**Big Island, Hawaii | January 20-30, 2026**

*"The ocean whispers secrets of transformation; the whales sing the songs of our soul's rebirth."*

## **Invitation for courageous women:**

Over the past 16 years, my connection to Hawaii has deepened and truly blossomed. The island granted me life changing experiences and during my last stay I realized that I wanted to share this gift with women who are ready to immerse themselves in Hawaii's primal power and spiritual essence. Feel invited to uncover your deep feminine expression and find answers to the burning questions of your soul.

## **Let Hawaii's Matriarchal Spirit Transform You:**

The ancient spirit of Hawaii inspires and awakens what was long forgotten. The Big Island, where the ocean waves dance with fiery lava flows... whales sing their timeless songs and dolphins bring their boundless joy. Here, you are invited to journey inwards and listen to the mysteries of the divine feminine moving quietly through us all. And in the embrace of this powerful island nature, our intuition and inner wisdom unfolds all by itself.

## **Circle of Women:**

Gathered in a supportive circles, we share experiences, speak of dreams, and explore the messages we find in mother earth... the 'Āina. A private seminar house, just steps from a magical bay, offers comfort, protection and space while our gourmet chef delights us with exquisite meals.

### Activities Filled with Inspiration:

Dance, gentle body/mind exercises, movements and meditations are merged into the program. Everyday, we explore our "Mermaid Nature" with snorkeling, swimming, and kayaking in "Grandmother Ocean Pacifica". The rituals and inspirations from the Huna philosophy will enrich our days!

### Be Part of This Extraordinary Journey:

"Whale Quest" is a ceremonial journey into the heart of Hawaii's primordial island nature and spiritual heritage. It will support women who seek rebirth, clarity, and soulful alignment. Are you ready for the adventure...?
